Dear Restaurant Manager,

While I enjoyed my meal here, I was upset to see foie gras listed on your menu.

Foie gras (translated from French as "fatty liver") is produced by plunging a feeding tube down the throats of ducks and geese. This force feeding causes the birds' livers to swell up to 10 times their normal size and leads to enormous animal suffering.

Please remove this cruel and unhealthy item from your menu.

Thank you very much for your thoughtful consideration.
